

2021 Report

IUCN SSC Green Status of Species Task Force

CO-CHAIR	CO-CHAIR	NUMBER OF MEMBERS
Molly Grace	Barney Long	23
Deputy Director of Biology, University of Oxford, Oxford, UK	Global Wildlife Conservation, Austin, Texas, US	

Mission statement

To develop a 'Green Status of Species' protocol document and incentivise effective species conservation and recovery.

Projected impact 2021–2025

Launch and implement the Green Status of Species (GSS) protocol to effective recovery and conservation impact.

Targets 2021–2025

ASSESS

T-001 Launch the Green Status of Species...

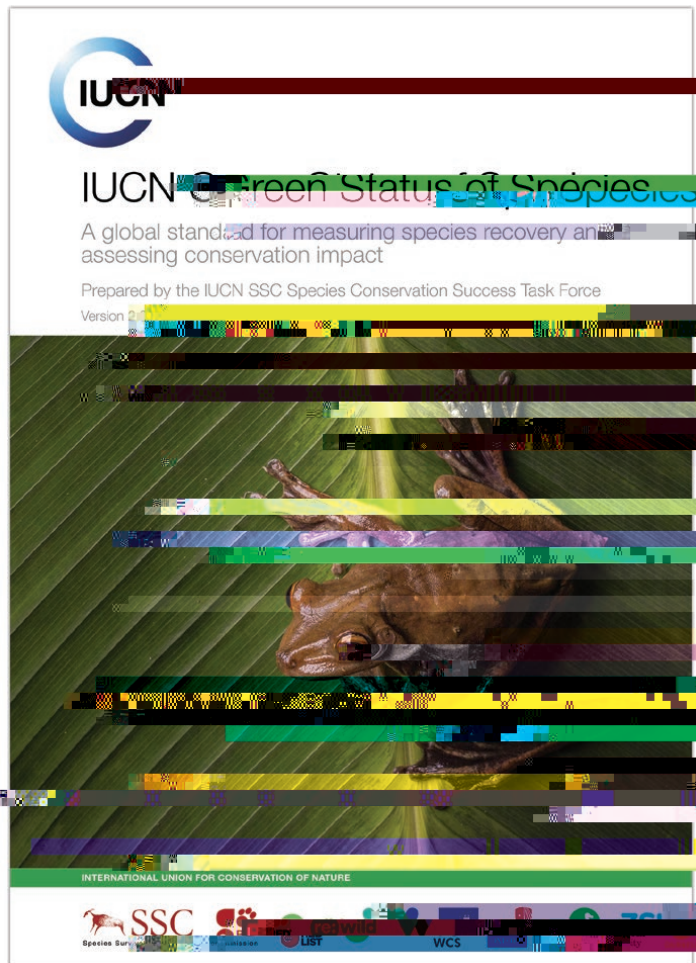

T-002 Establish Green Status team within the Red List Unit of IUCN.

T-003 Update Red List infrastructure (IUCN Species Information Service (SIS) and website) to provide integrated delivery of Red List and Green Status assessment.

T-005 Complete 5,000 GSS assessments by 2025.

NETWORK

T-004 Develop GSS assessment training

Summary of achievements

Total number of targets 2021–2025: 5

Geographic regions: 5 Global

Actions during 2021:

 Achieved: 3 (KSR 6)

 Not on track: 1 (KSR 2)

Overall achievement 2021–2025:
