

functions (see below), to reduce transaction costs and increase continuity and efficiency of the process.

Provide training to citizens' assembly on synthetic biology and its interactions with and implications for nature conservation, so that participants share a common understanding as starting point for the discussions.

- 1) Prepare a briefing addressed at all IUCN Members about what synthetic biology is, and why its implications for nature conservation require an inclusive debate, recalling the process on the topics so far within the context of IUCN;**
- 2) Prepare as necessary training materials (e.g. powerpoints, course handouts, relevant publications, quizzes) for training session of citizens' assembly, in ways responsive to needs expressed by the citizens' assembly members;**
- 3) Lead training session of citizens' assembly.**

1) One in person meeting for the training session of citizens' assembly;
2) Preparation time to develop training materials; **3) Address ongoing issues by email as needed**
