

IMPACTS OF TOURISM IN ANTARCTICA

- Between 1992 and 2020 the number of tourists visiting Antarctica increased ten-fold and continues to grow, meaning the negative environmental impacts of tourism are likely to increase.
- Existing regulations do not adequately protect the environment of Antarctica from tourism impacts, which include damage at visitor sites and along travel routes, and the disturbance of wildlife.

which risk the

help regulate the global climate.

• Tourism in Antarctica must be effectively and proactively managed, with new safeguards based onBetween 19
