

Mission statement

Avert the extinctions of Critically Endangered land and freshwater vertebrates in Southeast Asia.

Projected impact for the 2017-2020 quadrennium

By the end of 2020, we envision a number of Asian Species Action Partnership (ASAP) species (Critically Endangered land and freshwater vertebrates found in Southeast Asia) will have benefited from effective conservation action. ASAP will have: created an enabling environment to catalyse effective conservation action for ASAP species with a focus on those most neglected; increased funding a(i)6msi ilel f fi30.009 Tw(30.(m)-4h(g)-4 (30(2.20)-9.3n(n)86.9 (2)-4 8)2.3 (-

Network

Capacity building

i. A capacity development and training strategy has been developed. Priorities and roadmap are to be agreed in 2019. (KSR #17)

Partnership and fund raising

i. We have been engaging with ASAP partners and donors to increase funding for ASAP species conservation. Work is ongoing into development of a new funding mechanism for ASAP species conservation. (KSR #30)

Signatures

i. At the end of 2018, we had 80 organisations signed up as ASAP Partners. (KSR #28)

Communicate

Communication strategy

i. A communication strategy has been developed with planned implementation to start in 2019. (KSR #28)

Acknowledgements

We thank Wildlife Reserves Singapore as the host organisation for the ASAP Secretariat and the major financial contribution.
