

5.3.2. Minimum Quality Thresholds

further.

5.3.3. Technical Score

Your score for each technical evaluation criterion will be multiplied with the respective relative weight (see Section 4.4) and then summed to determine the overall technical score.

5.4. Financial Evaluation and Financial Scores

The financial evaluation will be based upon the full total price you submit. Your financial proposal will receive a score calculated by dividing the lowest financial proposal that has passed the minimum quality thresholds (see Section 5.3.2) by the total price of your financial proposal.

Thus, for example, if your financial proposal is for a total of CHF 100 and the lowest financial proposal is CHF 80, you will receive a financial score of $80/100 = 80\%$

5.5. Total Score

Your proposed total score is calculated by multiplying your financial score by the relative weight of the financial score and your technical score and your financial score.

The relative weights will be:

Technical: 70%
Financial: 30%

Thus, for example, if your technical score is 83% and your financial score is 77%, you will receive a total score of $83 * 70\% + 77 * 30\% = 58.1\% + 23.1\% = 81.2\%$.

Subject to the requirements in Sections 4 and 7, IUCN will award the contract to the bidder whose proposal achieves the highest total score.
