ISSUE 64

2023 Report of the IUCN Species Survival Commission and Secretariat

Communicate through PR Reverse the Red strategy in Argentina and Latin America.

Status: Achieved

Annually contribute to the SSC publications.

Status: On track

Develop CSS Argentina booklet.

Status: Achieved

Develop CSS Argentina video.

Status: On track

Annually submit contribution proposals to AZA and /or ALPZA publication.

Status: On track

Publish at least an annual Newsletter.

Status: On track

Organise at least two annual public presentations.

Status: On track

Periodically share SSC news.

Status: Achieved

Participate in joint campaigns (RtR).

Status: On track

Organise at least one event per year (RtR).

Status: On track

To promote the assessment and red listing of Teyú Cuaré (Endemic Flora of Misiones). (KSR 6)

Number of new national Red List assessments published: 0

Result description: In 2023, a meeting was held with PhD Pablo Demaio and Mag. Luis J. Oakley, both members of the IUCN SSC Temperate South American Plants Specialist Group. It was agreed to carry out a workshop to categorize the 13 Endemic Flora Species of Teyú Cuaré, which the CSS-Argentina considers as

agship species, projected for the begy o5 (s J a)-4ú Ciesy 0.25 w q 1 0.2 (s)-7.3 .5 (c F)-8.7 (l)-8.2 wgn(e)-7.3 (r)-18.2 5l Raiiongy o(N S)-r7 (g)-9.d (a)-8.4 (n)-9.3 (a c)-1ir the bhoei w7tn 2dante(k)-2.o (r)-12 (i)0.5 (s)6gy o(3t)515J-8 lhe(e)-13.4 tigy o5 45 ()TJO -1.307 Td(w)-16.8 7 1UCN SSC TN g(o)-10.1 (a)93.m7 (g)39.b((o)-5.1 (o)3)-8.4 (p)-21 (e)-15.3 (c)-6.5 (i)-5.9 (e)-7.3 (s o)

led by CSS Brazil. Additionally, the Of cer of
the CSS Argentina facilitated the meeting
for the conservation of the Yellow Cardinal
(

as well as officials and personnel of the competent authorities that monitor said institutions under their jurisdiction; (2) The CSS-Argentina led together with CSS-Brazil and the IUCN SSC a panel at the Science Summit 78th United Nations General Assembly (UNGA78) session. It was titled 'Reverse the Red: Collaborative species conservation efforts in South America. Centers for Species Survival and their role as catalysts for intersectoral alliances mobilizing national networks'.

Establish three new formal partnerships that will provide financial and institutional support (non-IUCN partnerships). (KSR 1)

Number of 'funding' partners established and maintained: 1

Result description: The CSS signed a cooperation and economic agreement with JetSmart, a low-cost airline.

Collaborate in the analysis of need and articulation for the creation of the National Sp(r)-11.1 (T0 -1.a)-5 24.1 (r)NPda: 1

Establish close collaboration with local governments. (KSR 4)

Agreements between parties: Ongoing.

Result description: In 2022, the CSS Argentina specialists taught a module in the second edition of the diploma 'Strengthening of technical and institutional capacities in wildlife management under human care for the conservation of biodiversity' promoted by the Ministry of Environment and Sustainable Development.

Carry out training on methodologies and the importance of an integrated approach to conservation. (KSR 3)

Number of trainings carried out: 1

Result description: In 2023, CSS Officer Pablo Dovico successfully finished the 'CPSG *Ex Situ* Conservation Assessment Course', and Guillermo Del no started to develop the 'CPSG *Ex Situ* Conservation Assessment Course'. The completion of this course was accomplished thanks to the granting of a scholarship from CPSG for Guillermo's work in the Maned Wolf (*Chrysocyon brachyurus*) SAFE program. This program is being led by the Zoo Conservation Outreach Group (ZCOG) and Fundación Temaikèn.

Facilitation of the national meeting of the Argentine Aguará Guazú Group (*Chrysocyon brachyurus*)
