2023 Report of the IUCN Species Survival Commission and Secretariat

Mission statement

The mission of the IUCN Sturgeon Specialist Group is to provide accurate information on the status of sturgeons and paddle shes and promote their conservation and recovery.

Projected impact for 2021–2025

By the end of 2025, we envision that we will have reached increased protection for sturgeon and paddle sh species. We plan to reach this goal mainly through our support of national and trans-national management and conservation activities. In addition, we will promote efforts to develop and establish state-of-the-art forensic methods for stringent control of international sturgeon trade (e.g. caviar). We predict that jointed awareness campaigns with our close partners from WWF and World Sturgeon Conservation Society (WSCS) will increase knowledge about sturgeon s
