PART 1 – INSTRUCTIONS TO PROPOSERS AND PROPOSAL CONDITIONS

1.1. About IUCN

IUCN is a membership Union uniquely composed of both government and civil society organisations. It provides public, private and non-governmental organisations with the knowledge and tools that enable human progress, economic development and nature conservation to take place together.

Headquartered in Switzerland, IUCN Secretariat comprises around 950 staff in more than 50 countries.

Created in 1948, IUCN is now the world's largest and most diverse environmental network, harnessing the knowledge, resources and reach of more than 1,300 Member organisations and some 10,000 experts. It is a leading provider of conservation data, assessments and analysis. Its broad membership enables IUCN to fill the role of incubator and trusted repository of best practices, tools and international standards.

IUCN provides a neutral space in which diverse stakeholders including governments, NGOs, scientists, businesses, local communities, indigenous peoples organisations and others can work together to forge and implement solutions to environmental challenges and achieve sustainable development.

Working with many partners and supporters, IUCN implements a large and diverse portfolio of conservation projects worldwide. Combining the latest science with the traditional knowledge of local communities, these projects work to reverse habitat loss, restore ecosystems and improve people's well-being.

1.2. Summary of the Requirement

IUCN invites you to submit a Proposal for the Climate Change Policy Expert. The detailed Terms of Reference can be found in Part 2 of this RfP.

1.3. The procurement process

The following key dates apply to this RfP:

RfP Issue Date	22 September 2020
RfP Closing Date and Time	18 October 2020, 23:59 CET
Estimated Contract Award Date	26 October 2020

1.4. Conditions

IUCN is not bound in any way to enter into any contractual or other arrangement with any Proposer as a result of issuing this RfP. IUCN is under no obligation to accept the lowest priced Proposal or any Proposal. IUCN reserves the right to terminate the procurement process at any time prior to contract award. By participating in this RfP, Proposers accept the conditions set out in this RfP.

IUCN requires Proposers to refrain from corrupt and fraudulent/prohibited practices in participating in this procurement. To this end, Proposers must sign the "[Proposer's Declaration](#)" and include it in their Proposal.

Proposers shall permit IUCN to inspect all accounts, records and other documents relating to the submission of the Proposal and contract performance (in case of an award), and to have them audited by auditors appointed by IUCN.

1.5. Queries and questions during the RfP period

Proposers are to direct any queries and questions regarding the RfP to the above IUCN Contact. No other IUCN personnel are to be contacted in relation to this RfP.

Proposers may submit their queries no later than 17:00 CET, 9 October 2020.

As far as possible, IUCN will issue the responses to any questions, suitably anonymised, to all Proposers. If you consider the content of your question confidential, you must state this at the time the question is posed.

1.6. Amendments to RfP documents

IUCN may amend the RfP documents by issuing notices to that effect to all Proposers and may extend the RfP closing date and time if deemed appropriate.

1.7. Proposal lodgement methods and requirements

Proposers must submit their Proposal to IUCN no later than 23:59 CET on 18 October 2020 by email to: kristin.meyer@iucn.org. The subject heading of the email shall be [RfP – Climate Change Policy Expert - [Proposer Name]]. Electronic copies are to be submitted in PDF and native (e.g. MS Word) format. Proposers may submit multiple emails (suitably annotated – e.g. Email 1 of 3) if attached files are deemed too large to suit a single email transmission.

Proposals must be prepared in English and in the format stated in Part 4 of this RfP.

1.8. Late and Incomplete Proposals

Any Proposal received by IUCN later than the stipulated RfP closing date and time, and any Proposal that is incomplete, will not be considered. There will be no allowance made by IUCN for any delays in transmission of the Proposal from Proposer to IUCN.

1.9. Withdrawals and Changes to the Proposal

Proposals may be withdrawn or changed at any time prior to the RfP closing date and time by written notice to the IUCN contact. No changes or withdrawals will be accepted after the RfP closing date and time.

1.10. *Validity of Proposals*

Proposals submitted in response to this RfP are to remain valid for a period of 90 calendar days from the RfP closing date.

1.11. *Evaluation of Proposals*

The evaluation of Proposals shall be carried out exclusively with regards to the evaluation criteria and their relative weights specified in Part 3 of this RfP.

- iv. develop policy overviews for a tender dossier for North Macedonia and feasibility studies in Bosnia and Herzegovina, Kosovo and Montenegro, including assessing policy implications on gender, youth and vulnerable groups;
- v. develop climate policy indicators and measures that are ecosystem-specific and track outcomes and test the effectiveness of policies, with a view to informing their implementation and influence policy decision-making. This includes the evaluation of the policy effectiveness pertaining to the two Nature-based Solutions pilot projects and its potential to achieving national policy objectives (also considering alignment with regional, EU and international policy frameworks);
- vi. Baseline assessment of policies for the preparation of a follow-up project and two sizeable Nature-based Solutions projects; and
- vii. develop a framework and methodology for policy mapping, review and analysis that can be included in a methodological guidance for the preparation and design of Nature-based Solutions projects.

A number of deliverables will be supported by or contribute to project activities and products that will draw on the work of other external experts as described for each task below.

Specific tasks

The consultant will be responsible for the following tasks:

1. **Regional comparative policy analysis:** an analysis of national policies relevant to climate change adaptation and disaster risk reduction, including sectoral policies, against Nature-based Solutions principles and approaches. The analysis will provide insights into current policy gaps and opportunities for the integration/mainstreaming of Nature-based Solutions into relevant policies – both nationally and regionally – building on the IUCN Global Standard for Nature-based Solutions. It serves as a reference point for decision makers and planners and offers a baseline against which ADAPT-project objective 2 (integration of Nature-based Solutions into policy and planning) can be assessed. This task will draw on analyses undertaken as part of national scoping studies for the six Western Balkan countries and incorporate the IUCN Global Standard for Nature-based Solutions.
 - Develop methodology and report outline
 - Desk research and where needed consultation with stakeholders to fill any gaps (consultation with stakeholders will be supported by IUCN)
 - Preparation of regional comparative policy analysis report
2. Building on the results of task 1, develop **recommendations and action points** for the integration of Nature-based Solutions into policies, strategies and plans at national and regional level. By considering the importance of healthy ecosystems and biodiversity for climate change adaptation and disaster risk reduction, these recommendations and action points will provide pathways for policy influencing and, thus, guide stakeholders to review, develop and/or refine policies to create an enabling environment for the implementation of Nature-based Solutions. Recommendations should be in line with international frameworks and EU law compliance requirements and, where appropriate, highlight where these support the achievement of international targets or reporting requirement, including the Paris Agreement, the post-2020 biodiversity framework, Agenda 2030, the Sendai Framework etc. Additionally, recommendations and action points should consider socio-economic dimensions of policies including gender equity, impacts on youth and vulnerable groups. This task will draw on analyses prepared by Nature-based Solutions field experts in Albania, Bosnia and Herzegovina, North Macedonia and Serbia. A gender expert will provide additional analysis and recommendations for gender-responsive policymaking.
 - A report with recommendations and action points, including policy implications for men, women, youth and vulnerable groups
3. **Overviews of enabling policy frameworks** specific to the pilot sites in Albania and Serbia provide

implement Nature-based Solutions in selected sites in Albania (to be determined) and Serbia (Municipality of Kraljevo). Each policy overview should analyse policies and strategies against Nature-based Solutions principles, draw on the IUCN Global Standard for Nature-based Solutions and highlight implications for women, men, youth and vulnerable groups. This task contributes to the design and implementation of two Nature-based Solutions pilot projects that are supported by a number of consultants. For the pilot project in Serbia, this task will also support the application of the [Restoration Opportunities Assessment Methodology \(ROAM\)](#), while in Albania it will support the application of the [Community-based Risk Screening Tool – Adaptation and Livelihoods \(CRiSTAL\)](#). This will include an analysis of national and sub-national policies on the extent to which key success factors and enabling conditions are in place, for instance to facilitate restoration at scale. It should also include recommendations and options for pathways for national policy uptake by drawing on how to meet national priorities under the Paris Agreement, Land Degradation Neutrality, Sustainable Development

adaptive project management and updated yearly work plan and logframe. This will be done in consultation between the local expert and the project team.

Duration of the assignment

The duration of this assignment will last over the period from the signing of the contract to 30 March 2022. The maximum available budget for this consultancy is estimated at EUR 48,000, excluding assignment-related travel costs, accommodation and subsistence costs.

Meetings and travel

The consultant may be required to participate in a number of digital or physical meetings and consultations. Any travel under this assignment is subject to IUCN's travel policy.

Approval of costs for any travel as part of this assignment will be subject to prior written approval by IUCN ECARO and submission of all receipts.

Experience and qualifications

The consultancy is open to individuals with the following expertise:

- Demonstrated expertise in climate change policy, policy analysis and development of policy indicators for monitoring and evaluation.

PART 4 – INFORMATION TO BE PROVIDED BY PROPOSERS

By participating in this RfP, Proposers are indicating their acceptance to be bound by the conditions set out in this RfP.

This Part details all the information Proposers are required to provide to IUCN. Submitted information will be used in the evaluation of Proposals. Proposers are discouraged from sending additional information, such as sales brochures, that are not specifically requested.

Each of the following must be submitted as a separate document, and will be evaluated separately.

4.1. Declaration

Please read and sign the [Declaration](#) and include this in your proposal.

4.2. Technical information/Service Proposal

Proposers are required to submit the following details in their technical proposal:

- Executive summary of the proposal
- Candidate's background, including CV
- List of similar assignments within the last 5 years
- At least one relevant example demonstrating the candidate's expertise and experience with providing climate change policy analysis, advice and/or monitoring and evaluation, preferably on issues related to climate change adaptation, disaster risk reduction, biodiversity and/or Nature-based Solutions
- Project methodology, including a description of how the expert intends to undertake the delivery of tasks, providing justification of the approach
- Work plan
- Contact details of 3 referees, familiar with the proponent's experience

4.3. Pricing information

Prices include all costs

Submitted rates and prices are deemed to include all costs, insurances, taxes, fees, expenses, liabilities, obligations, risk and other things necessary for the performance of the Requirement. Any charge not stated in the Proposal as being additional, will not be allowed as a charge against any transaction under any resultant Contract. The pricing proposal should be submitted as a separate document from the technical proposal.

Currency of proposed rates and prices

Unless otherwise indicated, all rates and prices submitted by Proposers shall be in Euro.

Rates and Prices

Rates should indicate the daily rate of the consultancy service.

PART 5 – PROPOSED CONTRACT

Below is the proposed Contract for the Climate Change Policy Expert. IUCN reserves the right to amend the proposed Contract prior to signature but, in submitting a Proposal, Proposers acknowledge that this is a standard IUCN contract template and will only be amended at IUCN's discretion.
