

Presentation plan

1. Marine and coastal environment of West Africa
2. Main results of the st Phase of PREE 200812
3. Objectives and priorities for the nd Phase of PREE

Marine and coastal environment of West Africa

Sandy coast

Environmental threats of the

PRCM: Regional Partnership for the Conservation the Marine and Coastal Zone of West Africa

www.prcmarine.org

- Coalition of stakeholders from 7 coastal countries of West Africa
- Marine Protected Areas Regional Network
- Conservation of threatened species and habitats
- Fisheries sustainable management
- Coastal zone integrated management

■ Develop environmental education to encourage changes of behaviors

Make of environmental education a priority

- Interest of States for the integration in the curricula
- Curricula reform: peace culture, citizenship, gender, environment = Momentum
- Experiences and initiatives (PFIE, Green school, experienced Associations...)
- Launching of regional dynamic since 2008

Main results from the 1st Phase of the Regional Environmental Education Program (2008-2012)

- Building of a sub-regional network of experts and institutions (20 institutions and organisations: Ministries of Education, Ministries of Environment and Organisations of the civil society)

Support to 3 processes of EE integration in the curricula:

- Guinea Bissau / National Institute for Development of Education
- Guinea / National Institute of Pedagogical Research and Action
- Cape Verde / EE Network of the Ministry of Education

- 500 teachers and technicians trained

2 Pedagogic tools (French, English, Portugues and Arabic)

- 8 local projects of EE creating links between schools and local communities: trainings, teaching tools, field visits, pedagogical conservation projects, cinema debate
- █ Exchange visits of children between Guinea Bissau and Senegal
- █ 1 700 teachers and adults involved
- █ More than 6000 children involved in PREE activities

Priorities for the 2^d of PREE (2013-2016)

Objective 1/ Support efforts of Ministries of Education of the 7 countries to integrate environmental education in the curricula:

- Lobbying towards the government
- National action plans
- Identification of contents
- National educative tools
- Reference regional teaching tools
- Teacher trainings / active pedagogy
- Monitoring and teaching advice

Objective 2/ Develop environmental education reference and training sites in each of the 7 countries :

- Local partnerships between Ministires of Education, Ministrie

Objective 3/ Strengthen and build up a regional network for environmental education :

- Update the EE stakeholders diagnostic
- Regular meetings of the national networks
- Regional meetings during the PRCM Forum
- Communication tools (newsletter, website...)
- Trainings and site visits (journalists, opinion leaders, Members of parliament network for the environment)
- Environmental communication

PREE Partners
