

# The IUCN Red List of Threatened Species™ 2009 update

## Odonata Facts

Total species assessed = 1,989 (up by 1,360 species since last year)

Total EX or EW = 2 (<1%) [EX = 2; EW = 0]

Total threatened = 261 (13%) [CR = 55; EN = 86; VU = 120]

Total NT = 90 (5%)

Total DD = 607 (31%)

Total LC = 1,029 (52%)

The usual caveat applies, that changes in figures for each Red List category since last year are due to various reasons, including new information being available since the last assessment and taxonomic changes resulting in a revised assessment, as well as genuine
